# Guided tour in the historic center of San Miniato

San Miniato has so much to offer. It will be an honor for me to take you on a discovery of this beautiful medieval city. My name is Sara and I am a tour guide. I will introduce you to the history of San Miniato by our meeting point in *Piazza del prato* where sets the Cathedral. Here we will visit the oldest part of the city which includes many historical buildings.

We will then reach the highest part of San Miniato dominated by the majestic Tower of Federico II: once we climb to the top, we will be able to enjoy a beautiful 360 degree panorama of the whole valley.

Back in the city center, we will visit the Church of the Santissimo Crocifisso and Piazza della Repubblica with the famous Palazzo del Seminario Vescovile. Our visit will end in Piazza del Popolo with a visit to the Church of San Domenico which houses a very particular fresco...

# Guided tour of the historic center of San Miniato and walk through the Charcoal Alley

What would a medieval city be without its "secret passages"? In this tour you will visit a little-known route, the *Vicoli Carbonai*. From here you will enjoy a wonderful panorama from different perspective, that of the farmers who lived at the foot of the medieval walls and who used the charcoal alley to reach the city center for selling of their goods by the market. After our walk we will visit the beautiful Church of the Santissimo Crocifisso and the *Piazza del Prato* by the Cathedral, the oldest part of the city which includes many historical buildings.

We will reach the highest part of San Miniato where we will have the opportunity to rest a bit in the shade of the majestic Tower of Federico II from which you will enjoy a splendid 360 degree panoramic view of the entire surrounding valley!

Once back in the historic center, we will pass in front of the beautiful Palazzo del Seminario Vescovile and then end our visit in Piazza del Popolo where we could visit the Church of San Domenico with a very particular fresco inside...
