

SAN MINIATO EXPERIENCE

MuMe Museo della Memoria
Loggiati S. Domenico, 8, 56028 San Miniato

A trip down memory lane

The Museum of Memory of San Miniato was created to offer a place to the conservation of the testimonials of the most recent history of the community of San Miniato. In particular, the years of the fascist dictatorship and the Second World War, up to the proclamation of the Italian Republic.

The exhibition itinerary will allow you to get to know some aspects of that period through an evocative and immersive itinerary through testimonials (oral and material) left by citizens on the twenty years of fascism, on experiences of anti-fascism and resistance, on the passage of the front, and finally on liberation.

The tour gives space to the stories of the massacre that took place in the Cathedral of San Miniato on 22 July 1944 in which 55 civilian victims lost their lives, which inspired the film "[Notte di San Lorenzo](#)", directed by fellow citizen Taviani.
