

SAN MINIATO EXPERIENCE

Podere Pellicciano
Via Serra 64, San Miniato

A passion that has been handed down in Podere Pellicciano

We want to tell you the story of our family that grows with us and our territory sip by sip. We will start the guided tour with a walk in our organic vineyards to discover the philosophy that guides us in our daily work.

We will take you to the cellar where the wines are born, and we will tell you about the winemaking techniques we use and the different refinement methods we adopt. The visit ends in the room, immersed in the vineyards, with a guided tasting of all our wines. The tasting can be combined with a platter of local cold cuts and cheeses (or vegetarian).
